**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. Claims 2, 16-21, and 29 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention. Election was made **without** traverse in Paper No. 7.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 11-15, 23, 26, and 28 are rejected under 35 U.S.C. 102(b) as being anticipated by Lee '724.

Lee teaches a floor mounted cargo tie down track for securement in a vehicle.

An elongated recess 22 is formed in the vehicle floor to allow insertion of a slotted track such that the top track surface is nearly flush with the adjacent floor contour/surfaces.

Re claim 1, at least a bus is described as one application which would include a driver/cab area as broadly claimed, an exterior bed as broadly claimed, and sidewalls.

Claims 11-15 and 28, the device is deemed configured as broadly claimed. With additional regard to claims 11-13 and 15, note at least the lower horizontal surface of the slot which faces the bottom of the track is positioned as broadly claimed.

Re claim 26, the device is deemed configured as broadly claimed.

Art Unit: 3612

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

6. Claims 3, 7, 25, and 31 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lee '724.

Re claim 3, Lee also teaches use of the track assembly in a common road truck. Lee fails to specifically teach that the truck would define a tailgate as such. It is notoriously well known in the art to fit an over the road truck with a tailgate/door to allow access to the truck rear for loading/unloading. Most trucks include such a tailgate, and specific recitation of such a gate would not constitute a patentably distinct departure from the teachings of Lee. With additional regard to claim 3, note the entirely releasable common track fitting at the end of 45.

Art Unit: 3612

Re claims 7 and 25, Lee teaches a track installation but fails to specifically teach the use of multiple tracks. The use of multiple cargo anchor tracks is notoriously well known in the art to provide system flexibility ensure secure tiedown by providing multiple attachment points. Specific recitation of multiple tracks then would not define a patentably distinct departure from the teachings of Lee.

Re claim 31, the Lee device as modified regarding claim 3 would be configured as broadly claimed.

7. Claim 22 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. Claims 5 and 8-10 are allowed.

9. Applicant's arguments with respect to the rejected claims have been considered but are moot in view of the new ground(s) of rejection.

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 3612

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
